PROFILE

A hard working, forward thinking Full stack and Mobile Apps Developer (iOS & Android). I'm a dynamic programmer, able to learn and implement high end features in various languages, frameworks and architectures.

EMPLOYMENT HISTORY

Full-Stack Developer at ICV, Tel Aviv

August 2018 — May 2020

- In Charge of all Front-end Projects
- Building a Corporate class Web App, using **AngularJS** and **Ruby on Rails**. This App is made to be fast in rendering large amounts of data, and build to be responsive and functional on a wide range of legacy machines and browsers.
- Creating various in-house apps that are used to visualize different stages of the company's NLP tagging process.
- Worked with **AngularJS**, **ReactJS**, **Ruby**, **Rails**, **SCSS**, **CSS Modules**, **Webpack**, **Parcel**, **Jasmine**, **Karma**, **Zeplin** and other tools.

Hybrid Apps Developer at ShowsAround, Tel Aviv

September 2017 — November 2017

- Re-building of the ShowsAround app using more performant and secure tools, including **React Native**, **Firebase**, **NodeJS**, **MongoDB**, **Less**, **Grunt** and more.

Contract Full-Stack Developer at Infinity Labs R&D

July 2016 — August 2018

Infinity Labs R&D is a programming boot camp, and is part of the Matrix corporation. After 6 months of training, the students are deployed to work as developers for various clients:

- **Full-Stack Developer** for LePromo [8.2017 - 8.2018]
 - In Charge of all Front-end Projects.
 - Building a complex Web App, including a video editor using advances **Web API's**.
 - Creating a myriad of services and small apps to be used internally and by clients, using **ReactJS**, **AngularJS**, **NodeJS**, **AWS**, **Firebase**, **THREE.JS**, **Babylon.JS**, **SCSS**, **Grunt**, **Parcel** and more.
- **Hybrid Apps Developer** for OnO Apps [10.2016 - 8.2017]
 - Developing **Hybrid Apps** for high profile clients - **Teva**, **Nespresso** and **3M**.
 - Constructing high performance apps using several frameworks and libraries, including **React Native**, **Cordova**, **Ionic** and **AngularJS**.
- Front-end Developer for Checkmarx [7.2016 - 10.2016]
 - Designing and Developing an internal tool, planned to be used **AngularJS**.
 - Creating data visualization pages for some of the company's products and plugins.

EDUCATION

Associate degree, Infinity Labs R&D CS Bootcamp, Ramat Gan

2016

BFA, Sapir Academic College, Sderot

2010 — 2013

EXTRA-CURRICULAR ACTIVITIES

Front-end private tutor at WeCode, Tel Aviv

May 2020 — August 2020

WeCode is a program that teaches high demand technological skills to underprivileged youth coming from harsh backgrounds.

I used to tutor some of their students in the Front end domain - HTML, CSS and Javascript.
